
NEGRO LEAGUE TEAMS ANNOUNCE RESERVE LISTS

Chicago, Dec. 19.—The headquarters of the National Negro Baseball League has announced the list of players that are reserved under contract to the several clubs. Most of the clubs will present practically the same line-up with which they went through the last season, the exceptions being the American Giants of Chicago and the Birmingham Black Barons.

It is apparent from the roster of the American Giants as given out that Manager Rube Foster intends to go after lost laurels next season. The fans observe a number of new names on the Chicago roster prominent among which is that of Padrone the great left hander who was with the Cuban Stars during the last season. If he remains

in the form which he has displayed heretofore it is believed he should add much strength to the pitching of the Giants.

The Birmingham Black Barons were not in the circuit last year, having been admitted at the last meeting of the league which was held recently in Chicago. Their wares will be new to the fans of the circuit. They come to the league with a great reputation and it may be that they will be a factor in the next pennant race.
