

**CUBANS START TO PLAY HERE.**

**The Monarchs Will Open 5 Game Series With Havana Team Tomorrow.**

The Kansas City Monarchs are home, ready to open a 5 game series with the Cuban Stars tomorrow at Association park.

The Cubans will arrive with a long string of victories to their credit. These two clubs met here last spring, breaking even in a 4 game series. This will be the Cubans' last series in the United States, as they leave here for Havana, Cuba, where they will play in the Cuba Winter League.

The club has several of the best players of Cuba in the line-up. Haro, the leading hitter of the Cuban League, LeBlanc, pitcher, and Blas, the midget third baseman, are considered fine players.

The Monarchs have won the last ten games played, and with their pitching staff in great shape are confident of winning the series from the Cubans.
