

ALL NATIONS HAVE GREAT 1916 RECORD

**Played Fifty Games to Date
—Won Forty-five—Tied
One, Lost Four.**

**Team Which Plays Here
Next Sunday Has Not lost
in North Dakota.**

Grand Forks fans, who see the All-Nations baseball team in action here Sunday, July 9th, will see a club that has not been defeated either in North or South Dakota this season.

Since starting out for their 1916 circuit from Kansas City, the All-Nations up to yesterday have played an even half hundred games. Out of this number, forty-five have been won, four have been lost and one tied. This is an enviable count for any club, an average of .900 out of a possible thousand.

In the games played last week following were the scores:

All Nations 3; Jamestown 0.

All NUations 11; Jamestown 4.

All Nations 3; Rowdon 0.

All Nations 3; Carrington 0.

This club has Donaldson the best colored pitcher in the world on their hurling staff. Mendez, the Cuban, who defeated the Detroit Tigers 1-0 at Havana, Cuba, striking out Ty Cobb and Sam Crawford in pinches, is also flinging for them. In addition to these stars, the Hawaiian second baseman, Blukol is said to be the fastest infielder in the world. A galaxy of all stars supports these men.

This All Nations pitchers are always given sensational support, which helps account for their records. Donaldson pitched 85 games last season and lost only 5 of them. Mendez' record is almost as good, although he did not start in as many games.

Manager Gaul of the All-Nations has definitely promised that Donaldson will pitch the game at Grand Forks on July 9th. The local team is "loading up" for the game and will present the strongest lineup procurable in an effort to break the winning streak of the famous club.
