

THE FANS ARE muchly aroused again over the prospects of seeing a little more good ball playing. The Armours will open a three game series with the Monarchs of Kansas City, playing one game Saturday, September eleventh and a double-header Sunday, September 12. The Monarch club is now holding second place in the National colored league and have a very fast aggregation. They have made several changes since they played here last. In their new pitcher, Wilbur Roan, without any doubt, they have one of the greatest colored pitchers in the game today. Moore, the new shortstop, is a great fielder and is leading the league in hitting. Arumi, a Cuban, is a new man playing right field. The old favorites, Donaldson and Mendez, are still with the club. Mendez holding down the second

sack and Donaldson pitching and in the center garden. Donaldson will pitch one of the games without fail.

Manager Otto Williams says the old familiar faces will be seen in the Armour lineup and the boys have been playing their regular

snappy ball and the fans will see some real classy baseball during this series. Lineup for tomorrow:
